About This Game

Shard Games is a competitive sports game similar to real Olympics on Earth. However, there is one tiny, little difference: it's fatal.

To survive and win, sportsmen and sportswomen, you'll have to kill each other in a variety of ways but mainly with explosives! What's more spectacular than a nice explosion?

There's a diversity of game modes for you to try, including TD (Team Deathmatch), FFA (Free for All), CTF (Capture the Flag) – with a lot more to come!

Key feature of the gameplay is the weapons that you chose, and the weapons are ... bombs! A huge variety of bombs. Help your team by taking a shield generator bomb! Perhaps you prefer to take the enemy down by surprise? Mines! You choose how you'll pave your way to victory! Prove you're the one who's worthy to hold the title for the best sportsman/sportswomen of the Shard Games – the most dangerous sport competitions in the habitable galaxy!

Game Features

Gameplay is mostly based on killing your enemies with explosives. Simple TDM and DM matches are special game modes which'll provide you with more unique and interesting gameplay.

This is one of the most pathetic games I've ever seen. You literally can't do anything except walk around and throw grenades. And the animations are terrible. There's no music, and the sound effects are also awful. \$8? ARE YOU KIDDING ME? It's not worth your time if it's FREE! Stay away.. Imagine playing dodge ball, but you ##### hate yourself.

0V100. Please update this game , i can't connect to other players .

There's only against with 10 zombie bot and they were suck .. who even had an idea of making a game that all you do is throw bombs and it hasent even been updated sence oct, wil not ever recommend this, its... its just hella crap and not worth the money. This game sucks do not buy it its crap and its also expensive so do not buy it if it gets updated and youtubersn like it then i might buy it back.!. Can't wait to see the final version of this game.

It's totally worth the money !

The graphic is so cool !

+ Steam Trading Cards. it is apsolutly\u2665\u2665\u2665\u2665\u2665. OK its cuz it just came out so Ill recommend it if you want to risk it not getting better. Ok the Graphics are pretty good but i got the game today it just released and there is no multiplayer servers but i kind of get that because it just launched today There was a bug where i could not turn my player left or right so i had to restart my game but other than that i think this is a solid game
